## Title 25—Indians

CHAPTER I—BUREAU OF INDIAN  
AFFAIRS, DEPARTMENT OF THE INTERIOR  
SUBCHAPTER O—RIGHTS-OF-WAY—ROADS  
PART 161—RIGHTS-OF-WAY OVER INDIAN  
LANDS

## Power Projects

The authority to issue regulations is vested in the Secretary of the Interior by 5 U.S.C. 301 and sections 463 and 465 of the Revised Statutes (25 U.S.C. 2 and 9).

Beginning on page 21947 of the FEDERAL REGISTER of October 17, 1972 (37 FR 21947), there was published a notice of proposed rulemaking to revise 25 CFR 161.27 (b) and (f) by eliminating requirements detrimental to the granting of rights-of-way across trust or restricted Indian-owned land. The regulations were proposed pursuant to the authority contained in 5 U.S.C. 301; in the Act of February 5, 1948 (62 Stat. 17; 25 U.S.C. 323-328); and in the Act of March 4, 1911 (36 Stat. 1253), as amended by the Act of May 27, 1952 (66 Stat. 95; 43 U.S.C. 961).

Interested persons were given 30 days in which to submit written comments, suggestions, or objections regarding the proposed regulations. Upon due consideration given to the various comments received, it has been determined that sufficient justification exists for the pro-

posed regulations and they are hereby adopted without change and are set forth below.

The revised 25 CFR 161.27(b) and (f) shall become effective July 5, 1973.

WILLIAM L. ROGERS,  
Deputy Assistant Secretary  
of the Interior.

MAY 25, 1973.

## § 161.27 Power projects.

(b) All applications, other than those made by power-marketing agencies of the Department of the Interior, for authority to survey, locate, or commence construction work on any project for the generation of electric power, or the transmission or distribution of electrical power of 66 kV or higher involving Government-owned lands shall be referred to the Office of the Assistant Secretary of the Interior for Water and Power Resources or such other agency as may be designated for the area involved, for consideration of the relationship of the proposed project to the power development program of the United States. Where the proposed project will not conflict with the "program" of the United States, the Secretary, upon notification to the effect, may then proceed to act upon the application. In the case of necessary changes respecting the proposed location, construction, or utilization of

the project in order to eliminate conflicts with the power development program of the United States, the Secretary shall obtain from the applicant written consent to or compliance with such requirements before taking further action on the application.

(f) An applicant for a right-of-way for a transmission line across Government-owned lands having a voltage of 66 kV or more must, in addition to the stipulation required by § 161.5, execute and file with its application a stipulation agreeing to accept the right-of-way grant subject to the following conditions:
